PARENT TESTIMONIALS

I was seeking for a home away from home while looking for a boarding school for my daughter to Grade 8. Fortunately, The Village International school is where I landed up. Beyond academics, the school places a significant focus on extracurricular activities, arts, and sports. This ensures that students receive a well-rounded education and can explore their talents and interests. The entire TVIS crew is accessible and always on call, which is amazing. The school has been transformed into a true "Nurtury" by all the teachers, support personnel, hostel wardens and the management.

As a parent, it has been a delightful experience sending our children to TVIS. We chose this school with an expectation to give them the best possible education as well as an exposure to extra curricular activities. Over the years we have seen them mature into a capable young men. The credit for their honesty, down to earth personality and overall development goes to the teachers and the wonderful set of friends that they made at TVIS.
